It has just been learned that China has taken an extraordinarily aggressive position on Trade in sending an extremely hostile letter to the World, stating that they were going to, effective November 1st, 2025, impose large scale Export Controls on virtually every product they make, and some not even made by them. This affects ALL Countries, without exception, and was obviously a plan devised by them years ago. It is absolutely unheard of in International Trade, and a moral disgrace in dealing with other Nations.

Based on the fact that China has taken this unprecedented position, and speaking only for the U.S.A., and not other Nations who were similarly threatened, starting November 1st, 2025 (or sooner, depending on any further actions or changes taken by China), the United States of America will impose a Tariff of 100% on China, over and above any Tariff that they are currently paying. Also on November 1st, we will impose Export Controls on any and all critical software.

It is impossible to believe that China would have taken such an action, but they have, and the rest is History. Thank you for your attention to this matter!

DONALD J. TRUMP  
PRESIDENT OF THE UNITED STATES OF AMERICA

The scatter plot displays the number of COVID-19 cases in the United States over time. The x-axis is labeled 'Time' and ranges from 2020 Q1 to 2023 Q4. The y-axis is labeled 'Number of cases (millions)' and ranges from 0 to 100. The data points show a sharp increase in early 2020, peaking at approximately 100 million cases in Q2 2020. This is followed by a decline to around 20 million cases by Q3 2020. The number of cases then remains relatively low until late 2021, after which it begins a steady climb, reaching approximately 80 million cases by Q1 2023, and then a slight dip to around 70 million cases by Q4 2023.

| Time    | Number of cases (millions) |
|---------|----------------------------|
| 2020 Q1 | 0                          |
| 2020 Q2 | 100                        |
| 2020 Q3 | 20                         |
| 2020 Q4 | 10                         |
| 2021 Q1 | 10                         |
| 2021 Q2 | 10                         |
| 2021 Q3 | 10                         |
| 2021 Q4 | 10                         |

- 2040 2040 11 10 COP30

The diagram illustrates the projected evolution of machine types from 1990 to 2040. It features several categories and their associated counts and percentages:

- Unusual Machines:** Represented by a large black dot at the bottom left, with a count of 400 in 1990 and a projected count of 3500 in 2040.
- H-1B:** Represented by a black dot in the middle left, with a count of 10 in 1990 and a projected count of 10 in 2040.
- POLITICO:** Represented by a black dot at the top left, with a count of 10 in 1990 and a projected count of 10 in 2040.
- Other Categories:** Represented by various symbols (dots, lines, and text) in the middle and right, with counts of 10, 2, and 3500 in 1990, and projected counts of 10, 2, and 3500 in 2040.

The diagram uses a combination of text, symbols, and lines to represent the data, with a focus on the growth of 'Unusual Machines' and the stability of other categories over time.
